

Design Build Systems

Fesco Systems Division

With more than half a century of experience, Superior's Fesco Systems Division understands how to build your system from a concept into complete turnkey installation.

Construction

In addition to efficient designs and quality manufacturing, we have the experience and equipment to provide conveyor installation, steel erection and mechanical setup.

Our skilled and experienced installation crews have a long history erecting complete plants. From drawings to construction, we provide complete turnkey installations for screen towers, crushing stations, closed loop systems and transfer conveyors.

Engineering

Aided by the latest in technology and training, our team of more than fifty strong provides solutions for your structural and conveying requirements with ease and efficiency.

Manufacture

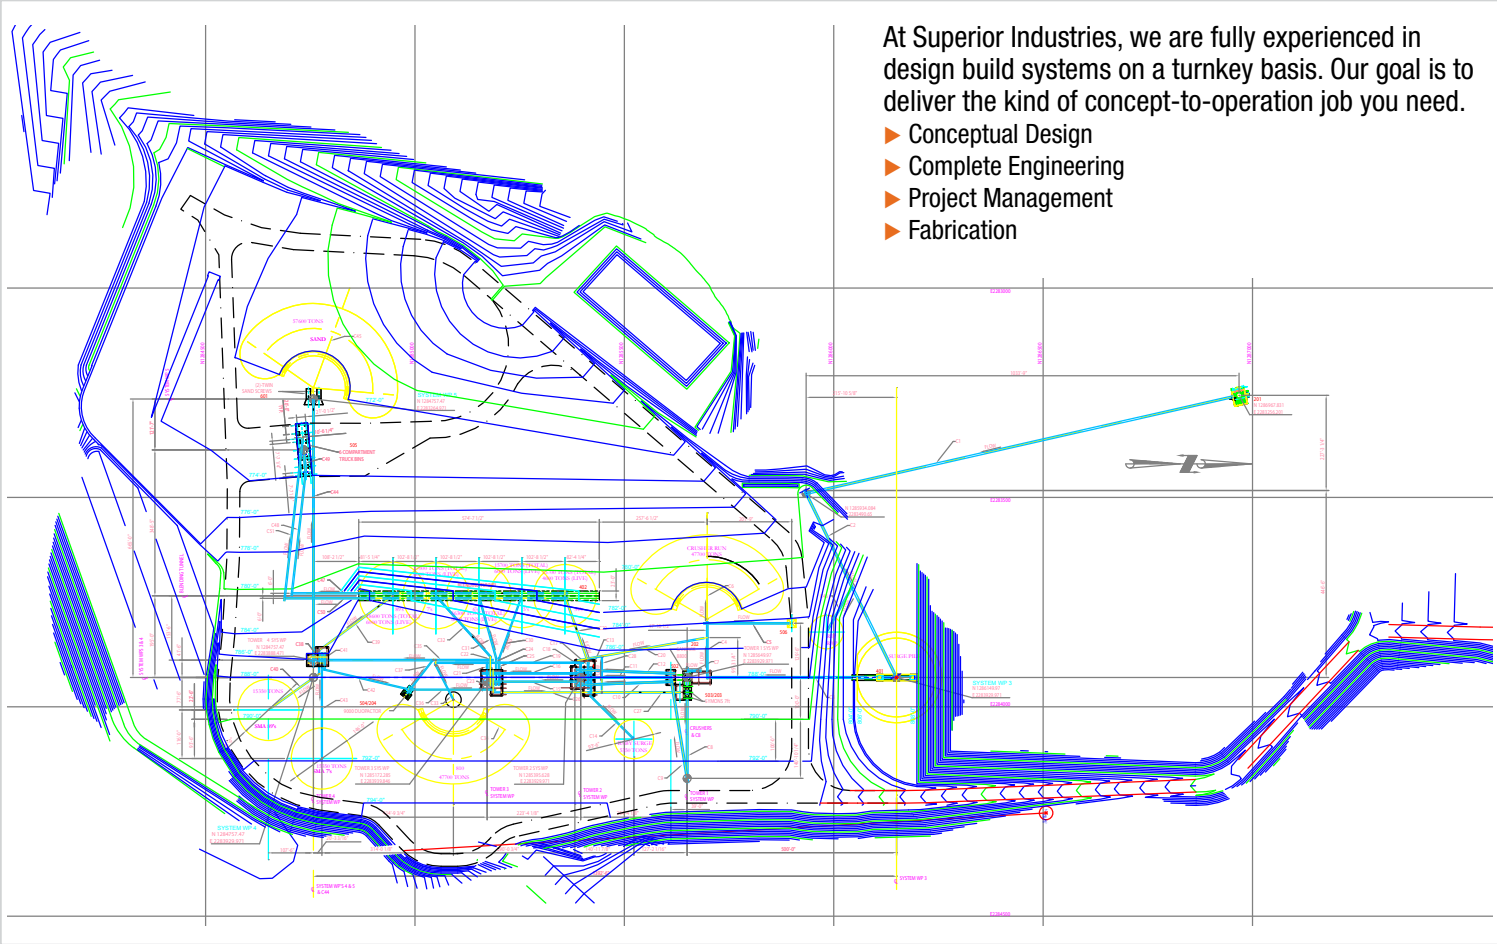

Superior has more than 400,000 square feet of manufacturing space at three U.S. locations. Our attention to modern manufacturing concepts combined with a strong commitment to employee training enables us to control costs and increase efficiencies.

Turnkey Solutions

At Superior Industries, we are fully experienced in design build systems on a turnkey basis. Our goal is to deliver the kind of concept-to-operation job you need.

- ▶ Conceptual Design
- ▶ Complete Engineering
- ▶ Project Management
- ▶ Fabrication

Crushing/Screening/Washing Towers

Primary jaw crushing station

Double screen tower with two 3 deck screens

Twin tower with two 3 deck screens feeding secondary crusher

Scalping screen tower with 3 deck screen, rip-rap cover over chute feeding bunker

Twin tower with two 3 deck screens feeding secondary crusher

Load Out

20' x 20' truck bins

20' x 20' truck bins with 3 deck wash screen and shuttle conveyor to feed bins

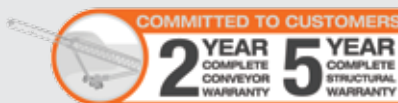

20' x 20' truck bins with 3 deck wash screen and shuttle conveyor to feed bins
